

No.	App#	\$Request	Approved	Proposal Title
1	74914	2500	2500	Investigating the efficacy of nest irrigation as a management intervention for green sea turtle conservation
2	74936	10000	7840	Microbial community associated with giant kelp <i>M. pyrifera</i> and nitrogen cycling
3	75141	8692	3100	Combining conservation genetics and citizen outreach to protect the endangered Kemp's ridley sea turtle from extinction in Mexico
4	75167	4800	4800	Saving Black sea harbor porpoises
5	75187	4680	4680	Genetic diversity and phylogenetic relationships among extant species of <i>Austrocidaris</i> (Echinoidea: Cidaridae)
6	75230	3654	3654	Testing novel restoration methods and areas for the native flat oyster <i>Ostrea angasi</i>
7	75004	5000	5000	Parrotfishes as mobile links: consumer-mediated dispersal of mat forming benthic cyanobacteria
8	75171	9000	9000	Quantification of effects of a widely used herbicide on Florida seagrasses to aid sea turtle conservation
9	75216	5951	5951	Characterizing Chemical Landscapes in Gulf of Maine Kelp Forests.
10	75405	5760	5760	Assessment of the impacts of beach seine fishery on benthic communities along the central coast of Ghana
11	75414	9010	5698	Coral incubator: improving outcomes of coral reef restoration through in situ larval rearing, settlement, and juvenile grow-out.
12	75430	916	916	The Diazotroph Dilemma: Understanding the role of nitrogen-fixing bacteria in maintenance of the coral-algal symbiosis
13	75432	4191	4191	Are We Clogging the Filter of the Reef: The Effects of Anthropogenic Nutrient Enrichment on Coral Reef Sponges at the Species Level
14	75454	4270	3670	Ten Years Later: A decadal exploration of changes in MesoAmerican Reef soundscapes
15	74641	4850	4850	Assessing the effects of light pollution on coral light-harvesting capabilities
16	74890	6316	6316	Characterization and comparison of the co-occurrence of bacterial biofilm community and heavy metal presence in microplastics isolated from water and sediment samples from both a river and a marine bay
17	74941	3160	3160	Does restricted connectivity explain adaptive phenotypic differentiation in a wide-dispersing marine species?
18	74956	7910	7910	How much is the rent? Animal species inhabiting the vacant holes left by the boring date mussel <i>Lithophaga lithophaga</i>

No.	App#	\$Request	Approved	Proposal Title
19	75028	1513	1513	Reproductive biology of a brooding sea star, <i>Anasterias antarctica</i> (Echinodermata: Asteroidea) in a climate change scenario
20	75040	9970	3600	Assessing the influence of seabird subsidies on the ecology and functioning of the largest mangrove forest and UNESCO World Heritage Site in Seychelles
21	75059	6220	6220	Diversity and biogeography of sea pens (Cnidaria: Octocorallia: Pennatulacea) from the southwestern Atlantic Ocean off Argentina.
22	75091	3750	3750	Reducing of the impact of sturgeon poaching activity on the biodiversity of the Caspian Sea.
23	75117	6255	6255	Dispersion and accumulation of plastic debris in surface sediments and in filter feeders of a semi-confined eutrophic system: Nuevo Gulf, Patagonia Argentina
24	75136	5000	5000	Metal heads: Physiological and neurological effects of methylmercury on a small coastal elasmobranch, <i>Mustelus canis</i>
25	75165	11023	3930	Geographical vulnerability patterns of a key foundation species to climate change
26	75191	7310	6310	Ecological and socio-economic observation network for Sri Lanka to ensure the sustainability of the ocean and the community.
27	75263	5870	5870	Exploring the impact of anthropogenic pollution in the sediment-associated microbiota of the largest saltwater coastal lagoon in the Mediterranean sea by a metagenomic approach
28	75265	4000	4000	FishXtreme – impacts of extreme events on fish early life stages
29	75284	6025	5517	“ROB Flood Potential Modelling using the Google Earth Engine Algorithm in the Coastal Area of Subang Regency, West Java- INDONESIA”
30	75298	8000	6000	Ecogenomic tool: estimation of eDNA dilution to monitoring marine top predators
31	75318	2180	2180	Biodiversity of epiphytic algae of the seagrass <i>Zostera marina</i> L. in the northwestern part of the Black Sea
32	75331	4746	4746	Quantifying the effects of the sunflower seastar ( <i>Pycnopodia helianthoides</i> ) on sea urchin herbivory
33	75375	9508	2900	Using diet specialization to assess vulnerability and response to disturbance in cetaceans
34	75404	7660	5040	Assessing coral trophic plasticity as a response to nutrient stress

No.	App#	\$Request	Approved	Proposal Title
35	75410	10000	5600	CONSERVATION OF MANGROVE FORESTS THROUGH KNOWLEDGE MANAGEMENT AND RESTORATION ALONG MTWAPA CREEK,KILIFI COUNTY- KENYA
36	75418	6430	6430	Exploring the marine biodiversity of the submarine Cape Range Canyon systems in Western Australia
37	75431	5500	2800	Distribution patterns of sea anemones (Cnidaria: Actiniaria, Corallimorpharia) in the Mar del Plata submarine canyon (southwestern Atlantic Ocean deep sea).
38	74562	15000	15000	Is SCUBA diving-induced pulmonary hypertension related to blood flow through patent foramen ovale and inflammation?
39	75108	12000	8000	Building a Doppler repository for artificial intelligence and big data in diving research
40	75116	5400	5400	Sea turtle festival in Cameroon
41	75253	9465	5250	Future Coral Reefs Warriors
42	75297	8058	5727	Looking for the trace of the critically endangered largetooth sawfish (Pristis pristis) through eDNA in the Caribbean of Costa Rica
43	75488	4474	4474	Seahorse ecology in small mangrove estuaries
44	75507	12000	12000	The role of the aerobic dive limit in acute kidney injury of spear fishers and free divers.
45	75206	15000	15000	Continuing Research of COVID 19 Effects on Divers
46	75437	11500	4000	Avoiding the extinction of Nigeria's Most Threatened and Poorly Known Marine Fish - Glaucostegus cemiculus (The blackchin guitarfish)
